

CHURCH SUITE SIMPLIFIED

In-house Staff Guide 2026

This document is the downloadable version of Christ the King Parish's In-house church suite documentation.

Christ the King Parish

This guide has been created as a simplified, practical reference for parish staff and volunteers within the Archdiocese of Halifax-Yarmouth

(Specifically, Christ the King Parish Dartmouth).

Its purpose is to provide clear, step-by-step instructions for the most common ChurchSuite tasks encountered in parish ministry, with a focus on real workflows and real scenarios that arise in day-to-day parish operations.

This document is not intended to replace or replicate the official ChurchSuite documentation. Instead, it complements it by offering straightforward guidance tailored to how our parishes typically use ChurchSuite in practice. For full feature explanations, advanced options, or system-wide guidance, staff should refer to ChurchSuite's official support materials.

Address Book Tasks

The Address Book is where parish contact records are stored in ChurchSuite. This may include parishioners, newcomers, volunteers, ministry contacts, and other adults connected to the parish.

This area helps staff keep contact information organized, support follow-up, and avoid relying on scattered emails, paper notes, or separate lists.

1.1 Add a New Person Manually

*IMPORTANT:

Always **SEARCH** before adding a new contact. Duplicate records can cause confusion and may affect ChurchSuite costs, since active Address Book contacts are part of the subscription calculation.

1. Open ChurchSuite.
2. Go to Address Book.
3. Select Contacts.
4. **SEARCH** for the person by name, email, or phone number.

5. If no matching contact is found, click “Add Contact”.

6. Enter the person’s basic details.
7. Save the contact information.
8. Open the new contact profile and review the details.
9. Add any helpful tags, such as Newcomer, New Parishioner, or Follow-Up Needed.
10. Add a short note if follow-up is needed.

*STAFF NOTE: ONLY ENTER INFORMATION THAT IS NECESSARY FOR PARISH FOLLOW-UP. DO NOT ADD SENSITIVE PERSONAL INFORMATION UNLESS THERE’S A CLEAR REASON AND PERMISSION TO STORE IT.

1.2 Find an Existing Person

You need to look up someone’s contact details or check if they are already in ChurchSuite.

Steps:

1. Open ChurchSuite.
2. Go to Address Book.
3. Select Contacts.

4. Search by name, email, or phone number.

5. Click the correct person from the results.

6. Review their contact record.

7. Follow up with the contact if needed.

*STAFF NOTE:

ALWAYS SEARCH BEFORE ADDING A NEW PERSON TO AVOID DUPLICATING RECORDS.

1.3 Review Form Responses

Someone submits information through a ChurchSuite form, such as a newcomer form, parish registration form, or contact update form.

Steps:

1. Open ChurchSuite.
2. Go to Address Book.

3. Select Forms.

4. Select the form you want to review.

5. Open the Responses tab.

6. Review the newest responses first.

7. Check whether the response is already linked to a person.

8. After you view the contacts response you will see the pop-up below.

9. If it is not linked, edit the link to the correct person or add them as a new contact.

***STAFF NOTE:**

SEARCH FIRST BEFORE ADDING A NEW CONTACT. THIS HELPS AVOID DUPLICATE RECORDS.

1.4 Add Notes and Tags

Use tags when a person needs follow-up, extra context, or a simple label that helps staff find or organize them later.

Tag:

A tag is a simple label used to group or identify people in ChurchSuite.

Note:

A note is a short internal comment added to a person's record.

Example names of tags:

Newcomer, Follow-Up Needed, Volunteer Interest, Music Ministry, Hospitality

Steps:

1. Open ChurchSuite.
2. Go to Address Book.
3. Select Contacts.
4. Search for the person by name.

5. Open the person's contact record by clicking their name.

6. Look for the Tags section on the contact record.

The screenshot shows the My ChurchSuite interface for a contact named Nikkayo Latrell Williams. The top navigation bar includes tabs for Address Book, Children, Calendar, Attendance, Small Groups, Ministries, Bookings, and Planning. Below this, a secondary navigation bar has tabs for Contacts, Flows, Tags, Key Dates, Forms, and Reports. The 'Tags' tab is currently selected. The contact's profile shows a profile picture with the initials 'NW', a communication dropdown, a 'My ChurchSuite' dropdown, and buttons for 'Edit' and 'More'. The main content area is divided into four sections: Details, Key Dates, Communication, and Engagement. The 'Details' section contains contact information: email (nikkayo@hotmail.com), address (Dartmouth, NS, B2W 6E9), and church (Christ the King Parish). The 'Communication' section lists preferences for general emails, general SMS, roster reminder emails, and roster reminder SMS, all of which are checked. The 'Key Dates' section lists preferences for login and privacy, including 'Allow My ChurchSuite login' (checked), 'Name is visible' (checked), 'Email is visible' (unchecked), 'Cellular is visible' (unchecked), 'Telephone is visible' (unchecked), and 'Address is visible' (unchecked). The 'Engagement' section shows a 'People' section with 'No family or household links found.' and a 'Notes' section with 'Add note...' and 'No results found.' At the bottom left of the contact details, there is a red box around the '+ Add to tag' button.

7. Click “Add to tag”.

8. Select the correct tag from the list OR create a new tag if needed

The screenshot shows the 'Add to tag' dialog box. It has a search bar at the top with the placeholder text 'Search...'. Below the search bar, there is a red box around the '+ Add tag' button. Underneath, there is a list of tags with checkboxes. The 'Staff' tag is selected with a blue checkmark. Below the list, there is a section titled 'Responsible Ministry' with a checkbox for 'Covenant of Care'. At the bottom of the dialog box, there is a 'Save' button.

9. Look for the Notes section on the contact record.

10. Click to add a new note.

11. Write a short, clear note if extra context is needed.

12. Save the changes.

* STAFF NOTE:

KEEP TAGS AND NOTES SIMPLE. USE TAGS FOR CATEGORIES. USE NOTES FOR SHORT CONTEXT.

1.5 How to Resolve Duplicate Contact(s)

You search for a person and find more than one contact record that may belong to the same person.

Why this matters:

Duplicate contacts can split important information across different records. This may include contact details, notes, tags, form responses, ministry involvement, and roster history. As mentioned in the preface, each contact has a cost.

Steps:

1. Open ChurchSuite.
2. Go to Address Book.

3. Go to Reports.
4. Look for the Data Cleansing section.

5. Open Duplicated Contacts.
6. Review the possible duplicate records. Note:

The screenshot may not show every available option. Depending on the record status and user permissions, staff may see options such as Ignore, Undo ignore, or Merge.

Note:

The screenshot above may not show every available option here. Depending on the record status and user permissions, when the area highlighted is clicked staff may see options such as **Ignore**, **Undo ignore**, or **Merge**.

Continuing

7. Compare details such as name, email, phone number, address, notes, tags, and ministry involvement.
8. If the records are not the same person, choose 'ignore'.
9. If the records are confirmed duplicates, use Merge.
10. Carefully choose which contact should be kept and which one should be deleted.
11. Review the details before saving the merge.

*STAFF NOTE: MERGING CONTACTS CANNOT BE UNDONE. ONLY MERGE CONTACTS WHEN YOU ARE SURE THEY ARE DUPLICATES, OR AFTER CHECKING WITH THE OFFICE/ADMIN LEAD.

1.6 Address Book Best Practices

Staff need a reminder of how to keep Address Book records clean and consistent.

Best practices:

1. Search before adding a new person.
2. Avoid creating duplicate contacts.
3. Keep names, phone numbers, and email addresses accurate.
4. Use tags consistently.
5. Keep notes short, respectful, and factual.
6. Only record information that is needed for parish follow-up.
7. Do not add sensitive details unless there's a clear reason and permission.
8. Mark form responses as handled once they have been reviewed.

*STAFF NOTE: THE ADDRESS BOOK SHOULD MAKE PARISH FOLLOW-UP EASIER, NOT MORE COMPLICATED. KEEP RECORDS SIMPLE, CLEAN, AND USEFUL.

Ministries/Rosters

THIS SECTION EXPLAINS HOW CTK CAN ORGANIZE MINISTRY AREAS, SERVING ROLES, MINISTRY TEAMS, AND ROSTER RESPONSIBILITIES. MINISTRIES MAY INCLUDE AREAS SUCH AS MUSIC, HOSPITALITY, READERS, ALTAR SERVERS, LIVESTREAM/MEDIA, CHILDREN'S MINISTRY, OR OTHER VOLUNTEER GROUPS.

2.1 Adding A New Ministry

A new serving area needs to be created, such as Music, Hospitality, Readers, Altar Servers, Livestream/Media, or Children’s Ministry.

Once you click the add ministries tab, it’ll open a form to fill out.

Steps:

1. Open ChurchSuite.
2. On the top menu, go to “Ministries”.
3. In the Ministries section, use the left/bottom navigation to select Ministries.
4. Click Add Ministry.

5. Enter the ministry name.
6. Add a short description if needed.
7. Choose between AdHoc, Serve 13, and Simple Rotation.

The screenshot shows a web form titled "Add ministry" with a close button (X) in the top right corner. The form contains the following fields:

- Name ***: A text input field.
- Serves ***: A dropdown menu currently showing "Sunday".
- Start Time ***: A time picker showing "10:30am".
- End Time ***: A time picker showing "12:00pm".
- Team Rotation ***: A section highlighted with a red border, containing three radio button options:
 - AdHoc**: Selected (blue dot). Description: "If your ministry does not follow a specific serving pattern, e.g. once per month on the first Sunday, select AdHoc. When you add a new roster, you'll be able to manually assign individuals or teams to each date."
 - Serve 13**: Unselected. Description: "Four teams serve once per month, e.g. Team 1 on the first week, Team 2 on the second week, etc. On months with five weeks, the extra week will be covered once per year by each team. During a year, each team will typically serve 13 times."
 - Simple Rotation**: Unselected. Description: "Create any number of teams and have them follow a simple rotation pattern. For example, if a team serves every 3 weeks, create three teams; if a team serves every 6 weeks, create six teams."
- Repeat Roster**: A dropdown menu currently showing "Every Week".

FIELD NOTES:

Ad Hoc means staff manually choose who serves on each roster date.

Simple Rotation means teams rotate in a set order.

Serve 13 should only be used if staff know this is the correct parish pattern.

Repeat Roster is used when the roster repeats regularly.

* STAFF NOTE:

KEEP MINISTRY NAMES SIMPLE AND CLEAR. AVOID CREATING A NEW MINISTRY UNLESS IT REPRESENTS A REAL SERVING AREA.

2.2 Assigning Ministry Overseers

A MINISTRY NEEDS ONE OR MORE TRUSTED PEOPLE TO HELP MANAGE THE MINISTRY'S ROSTERS AND SERVING TEAMS.

6. Click to add or manage roles.

7. Enter the role name.

8. Save the role.
